1. Award Conditions

***Award Conditions to the Financial Assistance Award  
Between the Denali Commission and Alaska Village Electric Cooperative  
For Stebbins – St. Michael Intertie Construction  
Award No. 1427  
August 2012***

***1. Scope of Work***

This award will provide \$405,038 for construction of an overhead electric power intertie between the communities of Stebbins and Saint Michael, Alaska. Match funding in the amount of \$40,504 will be provided by Alaska Village Electric Cooperative, Inc. (AVEC), for a total of \$445,542.

The intertie will consist of approximately 7 miles of new line and upgrades to roughly 3 miles of existing line. The project also includes distribution upgrades at each end of the intertie, necessary to integrate the new intertie with each community's existing electrical grid. A new prime power plant to be located in Stebbins and a standby backup power plant for Saint Michael are in design.

All Commission funding is intended for use for the scope of work identified in the Award document only. Any balance of funds remaining after the full scope of work has been completed will be returned to the Denali Commission.

***2. Milestones***

The following milestones are identified as the major steps to be completed as part of the project. "Planned" dates for the first milestone are included here. As part of each progress report, recipients shall update the progress toward meeting these milestones (see section 7, Reporting).

Milestone	Planned		Actual		Units	Total Cost At Completion
	Start Date	End Date	Start Date	End Date

#### **5. *Budget and Program Revisions***

The Administrative Circular, 2 CFR Part 215, applies to this Award. Please refer to the Administrative Circular for specific details on revisions to this Award.
